## **#INTERNATIONAL ARCHIVES WEEK CELEBRATIONS**

"The National Archives of Zimbabwe is proud to commemorate the 6th annual International Archives Week from June 3-9, 2024. This year's theme of 'CYBERARCHIVES' encourages all archives and document management professionals to explore the impact of technological advances on the archival sector.

As a member of the International Council on Archives (ICA), we are honoured to join our global counterparts in celebrating International Archives Day on June 9th. This day marks the founding of ICA under UNESCO in 1948 and serves to draw public attention to the critical role archives play in accountability, transparency, democracy, heritage, memory, and society.

**NB:** Throughout this week, the National Archives of Zimbabwe will offer **free access** to our archival collections. We invite all citizens to engage with us and learn more about the importance of preserving our shared history and cultural heritage through effective record-keeping. By embracing new technologies, archives can facilitate informed decision-making and promote greater transparency.

We are excited to participate in this important global initiative and we encourage everyone to join us in recognizing the vital contributions of archives and archivists. #IAW2024"
